Target Audience	
Compatible Phone Brand	
Compatible Model 0	
Compatible Phone Brand & Model More	
Description 1	Compatible with Apple Watch Series 7 Only [41MM]
Description 2	High Quality Material: made from premium PC material with tempered glass screen protector, HD transparent, high sensitive touching, no touching problem, can protect your apple watch from scratches, or accidental drops.
Description 3	Easy to Install: This apple watch case bumper is very easy to snap-on without removing the apple watch band. It matches all the holes of Apple Watch accurately.
Description 4	Precise Cutout: Full front access to all ports, controls and sensors of your watch. No need to remove the case when charging. Touch screen interface will be a little reduced compare to a bare watch.
Description 5	Special design: After using it in the gym or sports activities, may cause moisture (due to sweat) to stay between this product and the watch screen. This is due to the nature of the product, because the protective film does not stick to the screen. When there is fog between the case and the screen, please clean the water mist.
